January 2009

### D.K.G.—CERTIFIED AISC STEEL ERECTORS

January 16, 2009—D.K.G. & Associates, Ltd. is proud to announce it is now recognized as a Certified Steel Erector by the American Institute of Steel Construction (AISC). As a Certified Steel Erector D.K.G. offers a level of service above the industry standard with emphasis on:

- Quality Control
- Quality Assurance
- Per Project Safety Procedures
- Per Project Erection Safety Procedures
- American Welding Society (AWS) Certified—Skilled Labor
- Document Control

Our AISC Certification confirms to owners, contractors, and fabricators that D.K.G. has the knowledge, experience, skilled labor, management personnel, and the commitment to provide the highest quality product.

The continuous review of quality and safety procedures and control makes D.K.G. the #1 choice when you need a steel erection company.

**AISC & QMC**—“Getting certified by AISC is not an easy task, and we are always encouraged when a company like D.K.G. & Associates puts forth the time and effort to get it done. We look forward to a long and mutually beneficial relationship with D.K.G. & Associates.”

**D.K.G.** — “As a proud new member of the American Institute of Steel Construction, D.K.G. & Associates, Ltd. is committed to working safely and delivering the best product possible “

As we embark on our 12th year in business, D.K.G. is looking forward to working with many repeat customers and the opportunity to forge relationships with new customers. We are keenly aware of the impact of the economic downswing on our industry, and will work with contractors and owners to control costs and meet and exceed expectations. Please call our main office for more information or visit our website [www.dkg-ltd.com](http://www.dkg-ltd.com) regarding past projects and the services that D.K.G. offers.
